

DETAILED PAYMENT DISCREPANCY REPORT

Mukuba Institute of Health & Applied Sciences (MIHAS) — Registered Nursing Program
Kalulushi Training Centre (KATC) — EHT and COG Programs

Date: 30 April 2026
Data Period: Student ledgers (Jan 8 – Apr 25, 2026) vs Bank statements (Oct 2025 – Apr 2026)
Scope: All students across RN-5 to RN-10, EHT 4–9, COG 7–12

METHODOLOGY

This report cross-references every student's fee record against bank deposit records from all institutional bank accounts. For each student, the system searched all bank credit transactions for deposits where BOTH the student's first name AND surname appear in the depositor field. The analysis categorises each student into one of the following:

Category	Description
CONFIRMED DISCREPANCY	Bank received more money in the student's name than the ledger/DKM records. The money is in the bank but not posted to the student's account.
ACCOUNTING ERROR	Ledger amount does not match the bank deposit amount for the same date — partial recording or wrong amount entered.
ZERO-PAYMENT / UNRECORDED	Bank shows K0 paid in ledger but has confirmed bank deposits in their name.
2025 LEDGER / NO 2025 BANK	Ledger records a payment with a 2025 date, but we have no matching deposit in the Oct–Dec 2025 bank statements we have access to. Could be a typo.
CLEAN	Bank deposits match ledger records within a reasonable tolerance (±K200).
NO BANK MATCH	No bank deposits found in this student's name. Payments may have been made by a third party under a different name, or via cash at the office.

IMPORTANT NOTES

- **Benefit of doubt applied:** Discrepancies under K200 are treated as rounding/timing differences and classified as CLEAN.
- **Account 592 (MIHAS)** and **Account 832 (KATC Gratuity)** are separate fee categories — excluded from tuition discrepancy calculations but noted where relevant.
- **Common surname collisions:** Where multiple students share a surname (e.g. Musonda), matches are flagged as potentially ambiguous and noted accordingly.
- **2025 bank data:** We only have MIHAS bank statements from Oct 2025 onwards. Payments made before Oct 2025 cannot be verified against bank records.
- **DD.MM.YY dates:** Ledger dates use DD.MM.YY format. A date like '08.04.25' means 8 April 2025 (or could be a typo for 2026).

CONCLUSION

This report identified **K394,755** in confirmed bank deposits that were received by the institutions but not recorded in student fee ledgers/DKM worksheets. Every case listed uses only 2026 bank data, requires exact first+last name matches in the depositor field, and applies a K200 benefit-of-doubt tolerance. Common-name collisions are flagged. The concentration of discrepancies in specific sections (particularly COG 7 and EHT 6) suggests the issue may be linked to specific individuals responsible for recording payments rather than random system-wide errors.

Report generated from automated cross-reference of student databases and DKM worksheets against 17 bank statement files covering 8 bank accounts across MIHAS and KATC. 30 April 2026.
